

COVID-19 Update

Alert: To all of our valued patients,

We want to provide the best care to our patients and for this reason, starting on May 4, 2020 we will resume our regular business hours, unless otherwise directed by the Association of Optometrists (AAO). We have been closely monitoring recommendations from not only AHS, but also the Alberta Association of Optometrists (AAO), about how we can help prevent the spread of COVID-19. We will have staff available via phone or email to answer your inquiries and will do our best during this difficult time.

Plan ahead for an office visit: Help us protect our staff and patients and prevent any potential spread of COVID-19 and other illnesses. Please do not visit our clinic today if you are experiencing a fever, runny nose, cough, sore throat, or shortness of breath.
